

The 621st Mobility Support Operations Squadron Air Mobility Liaison Officers (AMLOs) advise and Liaise with U.S. Army and Marine Corps Units.

### Mobility Support Operations Squadron (MSOS)

The MSOS is comprised of Air Mobility Liaison Officers (AMLOs) and Expeditionary Air Ground Liaison Elements (EAGLEs) who provide air mobility expertise to expedite movement of joint personnel and equipment aboard Air Force assets.

The 821st and 621st Contingency Response Groups generate CR Forces that open, operate and close airfields.

### Contingency Response Groups (CRGs)

CRG forces directly support the JFC with agile, responsive, scalable and self-contained airfield operations. This rapid response capability generates combat power at a tempo required to preserve the joint force's ability to maneuver, act quickly, and decisively engage.

#### Who We Are:

- Community of trained and trusted leaders
- Ready and combat-credible force
- Innovative and adaptive warriors

#### Why We Exist:

- Turn Chaos into Order
- Bridge joint, partner nations, Spec-Ops, conventional, and civilian forces
- Rapidly respond to short-notice tasks
- Deliver options for America's senior leaders to deter adversary actions

#### How We Succeed:

- Cultivate community of mutual support in each other
- Instill culture of innovative thinking
- Embrace empowered leadership

Community of Ready Warriors

## 621st Contingency Response Wing

*Community of Ready Warriors*

### OUR MISSION

**Advise, Direct, and Project Airpower... Anytime, Anywhere!**

### OUR VISION

**Always Ready. Always Resilient. Always Forward.**

## Devil Raiders... Who Are We?

Devil Raiders advise, direct, and project airpower... anytime, anywhere! As America's only CRW, we execute the full spectrum of Contingency Response operations in support of any partner.

### How we do it:

The 621st and 321st Air Mobility Operations Squadrons deploy Air Mobility Division expertise

### Air Mobility Operations Squadrons (AMOS)

Conduct theater-wide crisis augmentation of CCMD's air mobility command and control and planning to execute large-scale DoD movements in support of CJCS-directed operations.

The 571st and 818th Mobility Support Advisory Squadrons' advisors Build Partner Capacity

### Mobility Support Advisory Squadron (MSAS)

Air Advisors assess, train, advise, assist, equip, and accompany partner nations in developing their capabilities to meet Geographic Combatant Command objectives. Utilizing these competencies, Air Advisors drive the mission *by* improving partner nation capabilities, *with* the United States' support, *through* shared interests and understanding in competition, conflict, and crisis.

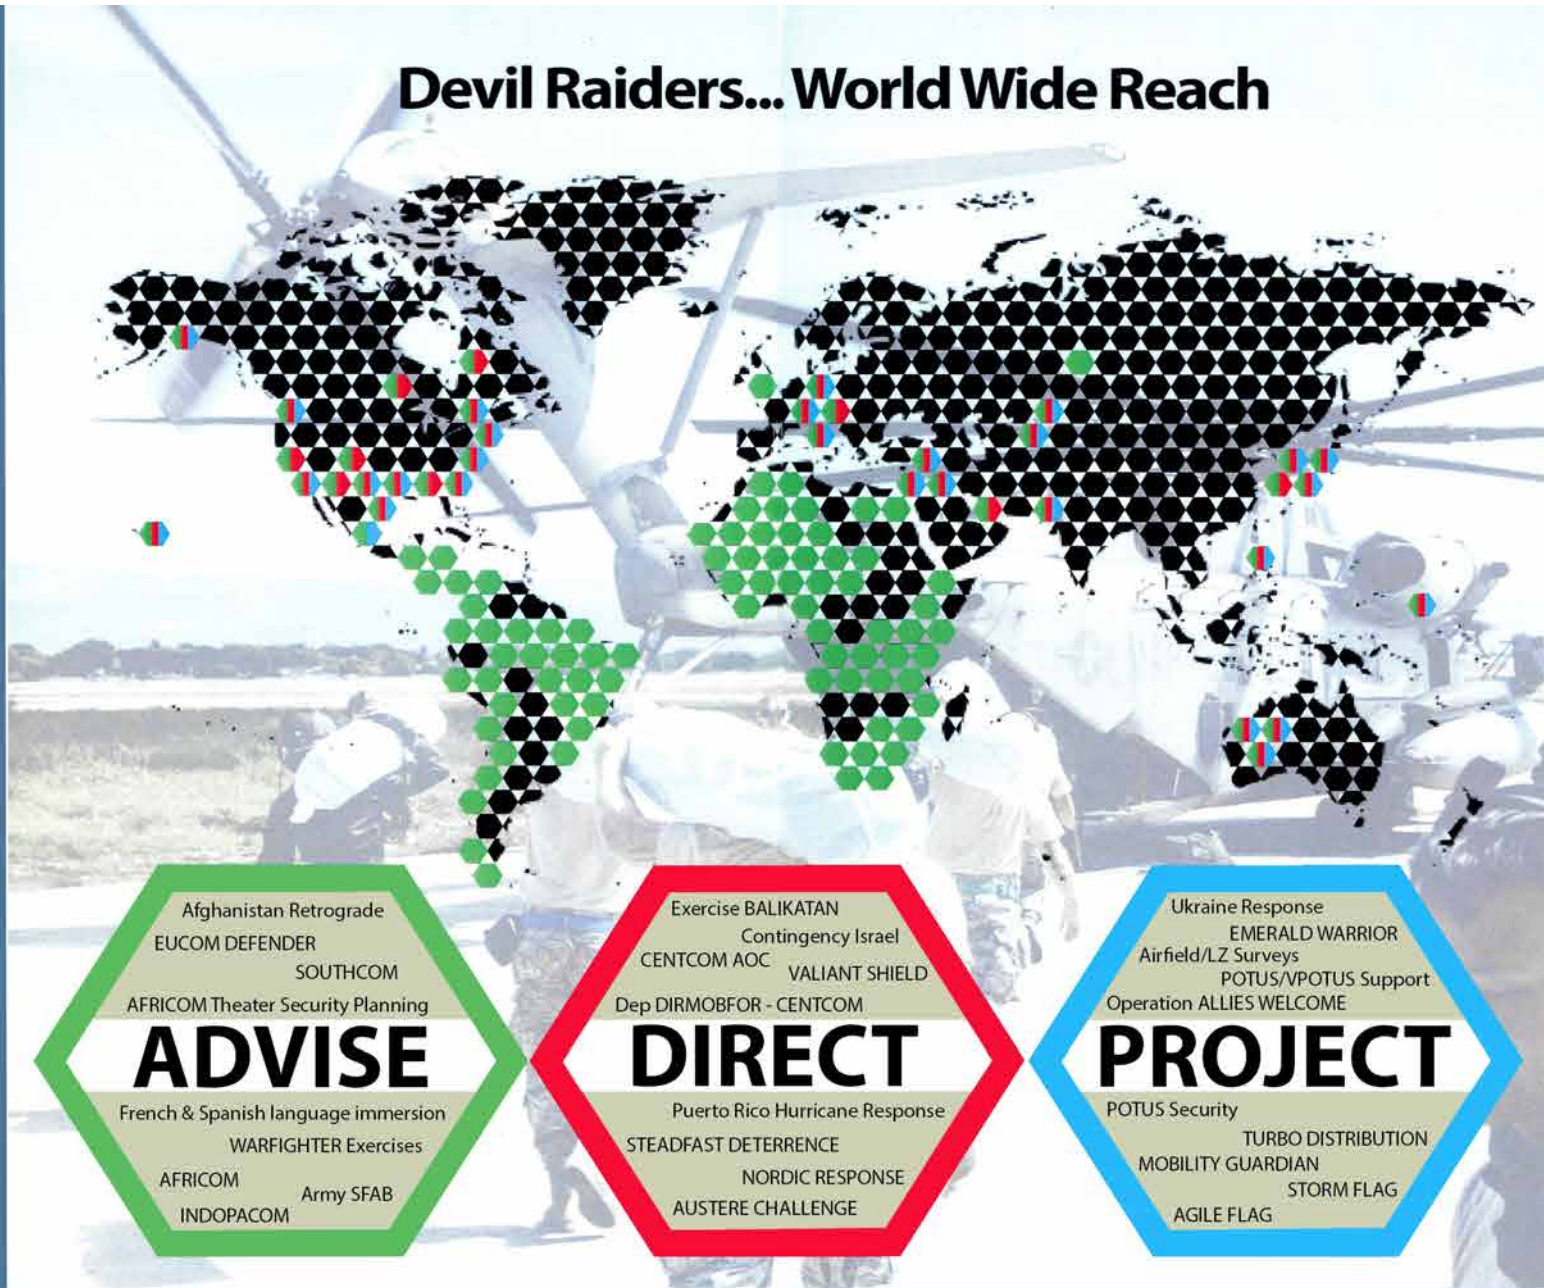

## The 621 CRW... America's only CRW

The 621st Contingency Response Wing is a unique, worldwide deployable organization whose forces are primarily stationed at Joint Base McGuire-Dix-Lakehurst, N.J. and Travis Air Force Base, Calif. The 621 CRW consists of approximately 1,580 Airmen assigned to three groups, 13 squadrons and more than 20 geographically separated operating locations aligned with major Army and Marine Corps combat units.

### A Proud Partner of the Global Response Network

**Rapid C2 Augmentation**

Air Advisors train and assist partner nations in developing air mobility capabilities. Each MSAS is regionally aligned, but globally capable across the continuum from competition to crisis and conflict.

As the Air Force's enabler for joint maneuver, CRG forces execute airfield opening agnostic to follow-on mission, aircraft type, or partner force. CRG forces are "first-in" to open airfields and airbases. They are critical to bridging the gap between seizure and follow-on forces; initiating operations in minimal time at any location.

Air Mobility Liaison Officers (AMLOs) and Expeditionary Air Ground Liaison Elements (EAGLEs) provide global, persistent air mobility effects, expertise, and training for the Joint Force on behalf of USTRANSCOM and Air Mobility Command.

Rapidly deployable team of Command and Control experts sent to integrate into theater Air Operations Centers during times of crisis and contingency. Plan and execute Airlift, Tanker, and Aeromedical Evacuation missions.
